

CAPABILITY STATEMENT 2026

Quiet. Professional.
Zero-Emission
Garden Care.

For commercial, strata
& community properties.

01

WHO WE ARE

EcoQuiet Mowing & Garden Care is a Brisbane-based provider of professional garden maintenance and outdoor cleaning services for commercial, strata, and community properties.

We specialise in low-noise, 100% electric garden care that delivers cleaner, safer, and more professional outdoor environments.

02

WHY ECOQUIET

100% electric, quiet,
zero-emission equipment

Fully insured, police checked,
professional team

Reliable scheduling and
clear communication

Trusted by property
managers and businesses

PROBLEMS WE SOLVE

We understand the unique challenges property managers and businesses face when it comes to maintaining outdoor spaces.

We're here to make it **easier**.

THE CHALLENGES YOU FACE

Noise Complaints

Traditional equipment is loud and disruptive for residents and the surrounding community.

Environmental Impact

High emissions and fuel-powered equipment don't align with today's sustainability expectations.

Unreliable Service

Poor communication, missed visits and inconsistent quality cause frustration and rework.

Hidden Costs

Breakdowns, call-outs and inefficiencies lead to unexpected costs and budget blowouts.

Poor Property Appearance

Unkempt gardens and outdoor areas impact your property's image and tenant satisfaction.

OUR SOLUTIONS DELIVER RESULTS

Low-Noise, Zero Disruption

Our 100% electric equipment operates quietly, keeping residents, tenants and the community happy.

100% Electric, Zero Emissions

We use zero-emission equipment to reduce our environmental impact and support a cleaner future.

Reliable & Proactive

We communicate clearly, stick to schedules and deliver consistent, high-quality results every time.

Cost-Effective Solutions

Fewer breakdowns, lower operating costs and efficient processes save you time and money.

Beautiful Spaces, Better Outcomes

We take pride in creating well-maintained outdoor spaces that enhance property value and community wellbeing.

We combine professional service with sustainable practices to deliver exceptional results that **make a difference**.

FEATURED REVIEW

Rachael Elizabeth

“ A fantastic professional and reliable company. Arrived on time and completed tasks to a very high standard. Brilliant, hardworking gardeners. Aleks was an excellent communicator and a pleasure to deal with. Highly recommend. ”

WHAT OUR CLIENTS SAY

“ Jack

We recently engaged EcoQuiet Mowing & Garden Care for a major clean up and mulching job at our building and were extremely impressed with the result. They took the time to properly inspect the whole site (even the difficult overgrown sections) before starting, which gave us confidence they understood the scope properly.

Communication was easy, pricing was clear, and the team worked hard from start to finish. We were so impressed we are planning to get them to take over the regular gardening maintenance too.

Would happily recommend them to anyone looking for reliable garden care services.

”

“ Felix

Absolutely brilliant people to work with. Communication was transparent and patient prior to the actual work so I didn't feel like I was obliged to work with them until I was sure I was okay with the price which I really appreciated.

And then when it came to the actual lawn care they went above and beyond what I requested. The absolute legends William and Caroline did everything they could think of that needed doing in our backyard within the time given to them and left us in a position where we barely had to lift a finger afterwards.

Seriously, after practically a year without attention, they saved our massive backyard in just an afternoon. If you're looking for quality and thoroughness with very little assistance or guiding needed, these guys are perfect, I can't recommend them more.

”
